Q10 Lawmakers in other states have passed laws to protect kids online by preventing social media companies like Instagram, Snapchat, and TikTok from using manipulative algorithms on minors, prohibiting addictive features like autoplay and infinite scroll, and limiting the amount of kids' personal data Big Tech companies can collect and sell to advertisers. These bills require tech companies to prioritize kids' safety and privacy online. Would you support or oppose Wisconsin passing a law like this to protect kids online?

Q11 Big Tech companies such as Amazon have been found to use our personal sensitive data to charge people different prices for the same goods and services, in a practice known as "surveillance pricing." Lawmakers have proposed a bill that would make this practice by Big Tech companies illegal, and would require tech companies to notify customers when they use AI in pricing. Would you support or oppose Wisconsin passing a law like this to ban surveillance pricing by tech companies?

Support 91%
Oppose 1%
Not sure 8%

Q12 Big Tech companies have constructed massive data centers in Wisconsin to power their supercomputers for artificial intelligence or AI. These data centers take up large amounts of land, consume large amounts of water, and typically produce significant amounts of noise and water pollution. They also result in increased energy rates for regular people, without creating many local jobs. However, the Wisconsin legislature passed a bill that gave Big Tech a tax break to encourage more data center construction. Do you support or oppose state lawmakers giving Big Tech more tax exemptions to construct more data centers in Wisconsin?
